

European Passport Quiz

26/30

1. **Area** - Using the information from your passport and the table I provided with the countries your class did not cover, please create a graph of European countries based on area. The graph below has exactly the right number of boxes to fit all the countries of Europe into it if we make each box equal to 25,000 square miles.

Step One

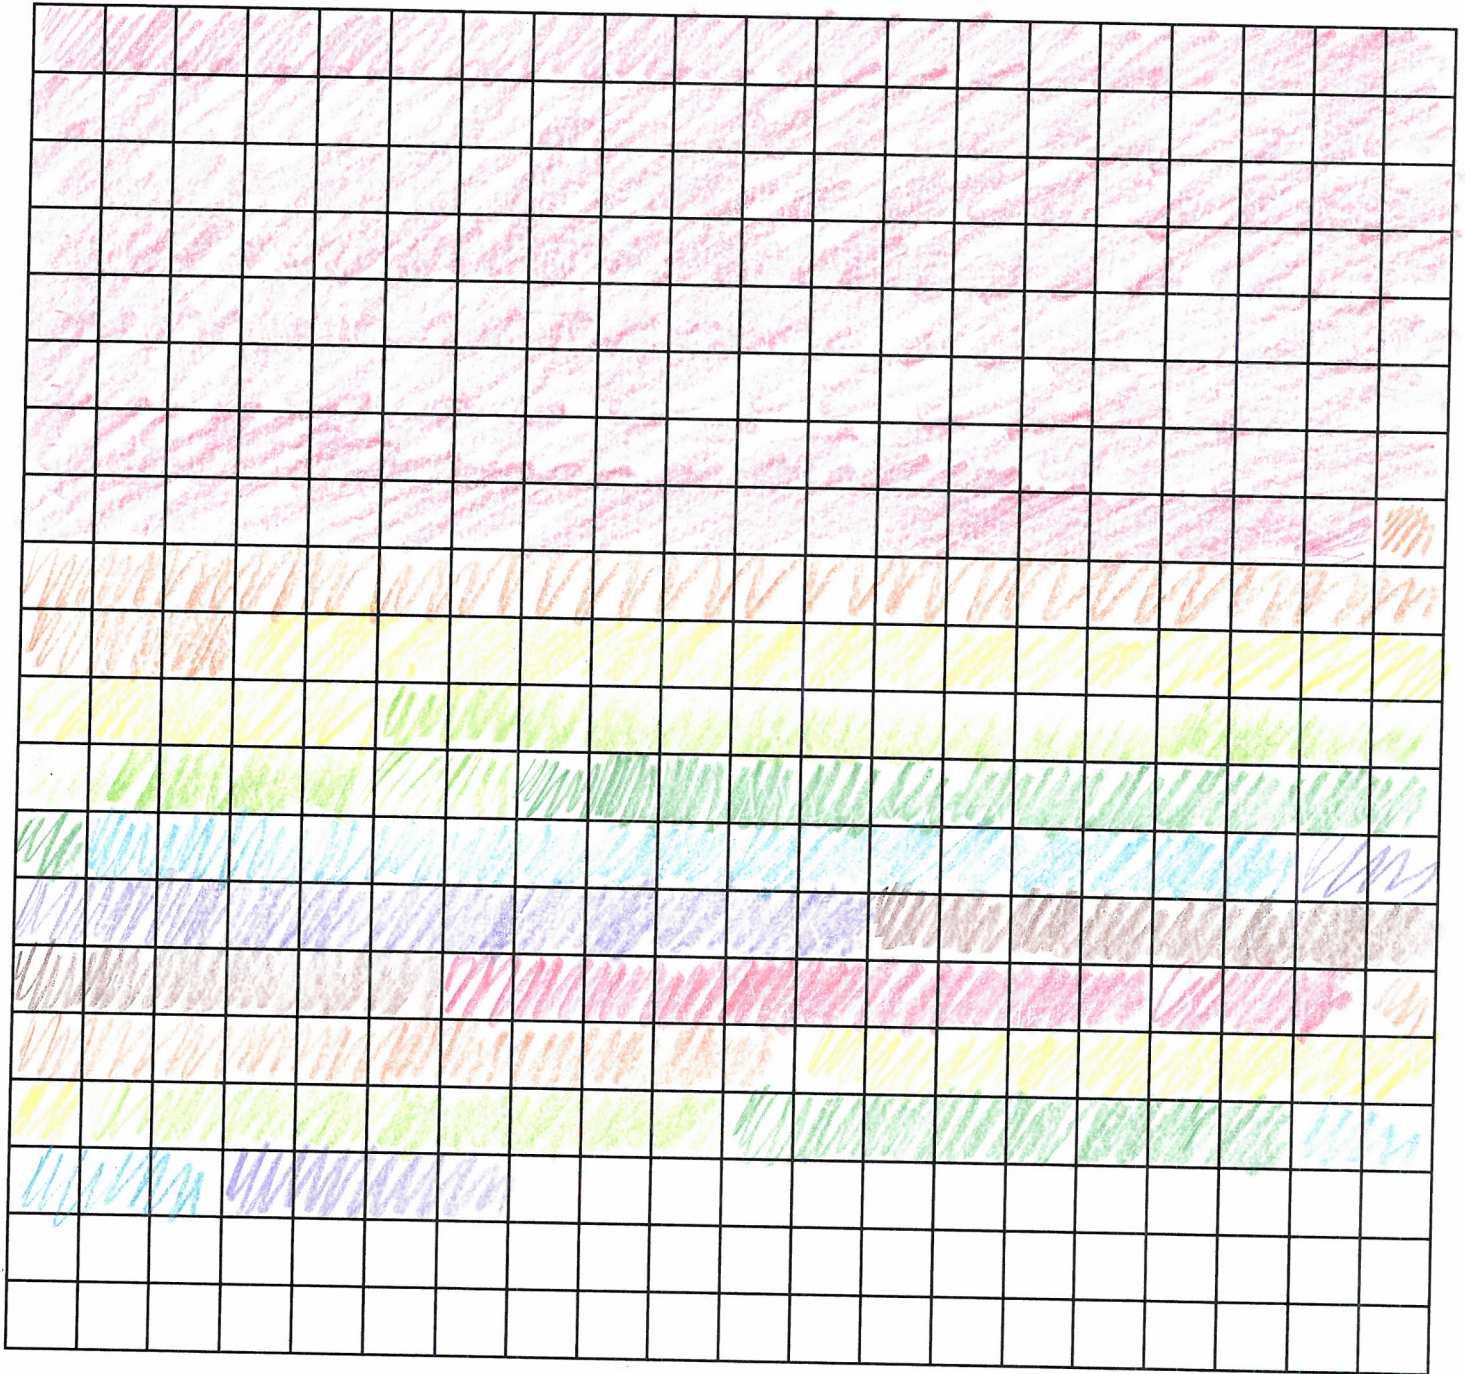

- Make a list of the top 15 countries in Europe by area.
- Figure out how many squares each country will get by dividing the area by 25,000
- Choose a color for each one. It's okay to repeat colors - use three or more.

well done!

	Country	Area (in Square Miles)	Number of Squares	Color
1	Russia	3,972,400	159	
2	Ukraine	603,628	24	
3	France	551,394	22	
4	Spain	498,468	22	
5	Sweden	449,964	14	
6	Norway	385,178	17
